

Manufacturing myths

5 Misconceptions about reconditioned parts

1

Inferior

FALSE

With a reputable supplier, reconditioned parts will arrive:

- Clean and pristine
- Fully functional
- Ready for installation

2

Old

FALSE

Reconditioned parts are often ALMOST BRAND NEW or LESS THAN A YEAR OLD.

3

Damaged

FALSE

REPAIRED = components that have broken down and were restored back to a functional state.

RECONDITIONED = components that have been rejuvenated back to original factory condition.

4

Hard to find

FALSE
